MANNED AND READY

RULES SUPPORT PACKAGE

BY ANDREW FINCH AND ALAN BUTLER
EDITION 1.2

The Rules Support Package for Stations Manned and Ready II contains the following elements:

- Game Template Booklet. This contains turn and torpedo templates, operation sheets for aircraft carriers and air bases, record sheets for aircraft squadrons, and blank aircraft counters. This is a useful file which has more turn templates. If you are using a bound printed edition of our rules you will need this file so you can print these templates at home.
- Maritime Aircraft Data Booklet. This booklet contains an extract of the aircraft data providing maritime patrol aircraft, flying boats and float (spotter) planes. These aircraft have no attack capability against ships. This list also shows aircraft with an ASW capability if you wish to use them in a game that includes submarines.
- Ship Data Catalogue. This file has a complete list of all the ships for which we have created game data, and indicates which sets you would need for particular ships.
- Ship Data Glossary Booklet. This displays a selection of Ship Record Sheets and explains the content of the various fields in schematic form.
- Ship Data Sheet Description. This provides an explanation of the information on the ship data sheets, and how to use them.
- Merchant Vessel Booklet. This provides data sheets for typical merchant vessels and will be updated from time to time.
- "Taster" Battle Booklets for the following battles:
Cape Bon
Coronel
Denmark Strait
Falklands
Kolombangara
Port Arthur
River Plate
Santiago
Tassafaronga
