## INTRODUCTION

This catalogue has been prepared so that you have some idea of what data sheets are available for the ships in the period, and where they appear. The data sets are divided into three eras covering the periods 1880 to 1905, 1906 to 1925 and 1926 to 1945. This split is applied to the seven main nations: France, Germany, Great Britain, Italy, Japan, Russia and the United States, as well as the Other Nations. The information is laid out by nation, and the ship types are ordered as follows (with the abbreviations used with the rules):

Battleship.....	BB
Battle Cruiser.....	BC
Semi-Dreadnought.....	SD
"Pocket Battleship".....	BBL
Pre Dreadnought.....	B
Coast Defence Battleship.....	BCD
Hybrid Battleship-Carrier.....	BBH
Aircraft Carrier.....	CV
Light Carrier.....	CVL
Light Carrier (M).....	CVLM
Escort Carrier.....	CVE
Escort Carrier (M).....	CVEM
Seaplane Carrier.....	CVS
Armoured Cruiser.....	AC
Heavy Cruiser.....	CA
Unprotected Cruiser.....	C
Light Cruiser.....	CL
Protected Cruiser.....	CP
Scout Cruiser.....	CS
Torpedo Cruiser.....	CT
Cruiser Minelayer.....	CM
Anti Aircraft Cruiser.....	CLAA
Destroyer.....	DD
Destroyer Escort.....	DDE
Torpedo Boat.....	TB
Destroyer Transport.....	DDT
Torpedo Boat Destroyer.....	TBD
Destroyer Minesweeper.....	DMS
Sloop.....	SL
Frigate.....	FRG
Corvette.....	COR
Minesweeper.....	MS
Minelayer.....	ML
Armed Merchant Cruiser.....	AMC
Merchant.....	MC
Aviso.....	MISC
Coast Defence Ironclad.....	CB
Monitor.....	MO
Gunboat.....	GB
Torpedo Boat Leader.....	TBL
1st class Torpedo Boat.....	TB1
2nd class Torpedo Boat.....	TB2
3rd class Torpedo Boat.....	TB3
MTB.....	MTB
MGB.....	MGB
Attack Transport.....	AT
Landing Ship.....	LS
Landing Craft.....	LC
Landing Craft – Support.....	LCS

The ships are grouped by type, then by Class name (generally using class names as used in Conway's). For vessels larger than a destroyer, individual ships in each class have separate entries; destroyers and smaller have a single sheet for their type, though all the ships for which the data is valid are shown.

Very small ships of Type "X" use a different form of record sheet and are marked with '[X]' at the start of their entry.

Entries are ordered by date and service dates appear next, followed by the ship cost in points, taking into account the Crew Quality for the dates in question.

This is followed by the data set number along with the current version number and date when the set was last updated.

Remarks provide additional information that may be useful. Many vessels that had changes in outfit or even ownership have a cross reference to the alternative dataset shown here. In some cases vessels may have optional weapons, so players should consider which they are going to use. This is particularly the case of Japanese vessels which may carry special AA weapons.

The catalogue field shows which ship data set contains the sheets you may want. Some sheets appear in several overlapping sets. The data sheets in the sets follow the same sorting parameters as the catalogue. The alphabetical coding is as follows:

France (including FNFL and Vichy forces).....	FR
Germany.....	GE
Great Britain.....	GB
Italy.....	IT
Japan.....	JA
Russia.....	RU
United States.....	US
Other Nations.....	ON

### Searching for ships

If you wish to search for a specific named ship use the <Search> routine in Acrobat rather than <Find>. This will give you a report with all the entries for a ship name, from which you can then narrow down your search to the set you are after.
